

**TRANSNATIONAL
MIGRANT
STRIKE**

NOTHING WORKS WITHOUT US

**STOP THE WAR
ON IMMIGRANTS**

WHO ARE WE?

We are migrants, with and without documents, refugees, asylum seekers. We are children of immigrants, parents of European citizens.

We have arrived in Europe recently or we have been here for decades, we were born here.

NOTHING RUNS WITHOUT US: NO SOCIETY CAN SUSTAIN ITSELF, NO ECONOMY CAN PROSPER WITHOUT OUR CONTRIBUTION.

Everywhere in Europe, we have witnessed the longstanding exploitation of our relatives, neighbours, and friends.

Today, we call for our neighbors, colleagues and friends to stand with us as we demand rights and justice.

WE DEMAND:

- **Safety and protection for all migrants,** including women, children, queer and trans communities, sex workers, religious minorities, and racialised communities that are most exposed to exploitation and abuse.
- **Freedom of movement and access to rights for all migrants:** those who work with permits, those who work without documents, those who do not work, those who are excluded from the labor market.
- **Regularisation of all undocumented migrants** and guaranteed access to health and social benefits, education and formal employment market.
- **An end to the policies which criminalise migration,** through punitive laws targeting people on migration journeys, undocumented migrants and workers in unrecognised industries such as sex work.
- **The abolition of prisons and detention centers,** where migrants are jailed and some of them working.

HOW TO JOIN THE MOVEMENT:

The movement is initiated by the Migrant Justice Community of Practice, a coalition of migrant-led and racialised-led organisations working to shift European migration approaches away from punishment, violence and control toward community, care and social provision.

Over the next two years, we will organise within our communities towards a large movement of strikes, actions and mobilisation to demand justice and rights for migrants, and by extension, all people affected by inequality, violence and exploitation.

To get involved, you can organise local migrant justice labour actions, boycotts and other events.
